

MATHEMAFRICA.ORG

{MATHEMATICS} ∩ {AFRICA}

Mathemafrika.org is a blogging platform for bloggers writing about mathematics within Africa and those who are blogging about mathematics with relevance to Africa. We aim to be a multi-lingual, multi-blogger platform, giving a voice to anyone who wants to discuss mathematics, and a source of information and inspiration for anyone who would like to know how mathematics might be relevant to them.

Our Mission

To inspire young people, educate about the relevance of mathematics in Africa, create a community, inform about mathematical discoveries, give a show case for role models, write down the history of mathematics in Africa, publicize events.

Become a blogger

We are inviting you to become one of our bloggers. This will give you an international voice to share your mathematical thoughts and enhance the visibility of mathematics in Africa. Please contact us at info@mathemafrika.org for more information.
